

Meeting 23.06.2022

Date

23.06.2022

Location

MS Teams (online)

Participants

- Simon Felix
- Elias Mjoen
- Joshua Schärer

Topics

- Milestones
- Discussion on the paper

Risk update

No specific update

Actions to be taken

No actions need to be taken

Discussion

Milestones

- Discussion on all the new defined milestones.

Discussion on the paper

- It is really good that we have found the paper.
 - Shows that we did research.
 - Good to see that the problem itself is actually interesting.
- But it is not really a problem for plagiarism as long as we do not copy anything.

Decisions made

Milestones

- Send the milestones after the meeting to Simon Felix.

Discussion on the paper

- Have to at least reference the paper somewhere in our thesis.
- Maybe we can even compare ideas and the procedure.
 - Because we are not doing completely the same, it is interesting to see what is different.

General

- Update SAT NuGet package to the latest release.
- Create the list which holds all constraints inside the loop rather than clearing it.
 - Otherwise it is much easier to make mistakes.
- Absolutely do not test performance in this matter.
 - Use benchmark .net library instead.

Websummary

- Do not spend too much time on this.
- Can be done at the last minute.

Vacation

- Simon Felix is not going to be available on the 7th, 14th and 21st of juli.
