Meeting 08.08.2022

Date

08.08.2022

Location

FHNW (Room 5.2A)

Participants

- Simon Felix
- Elias Mjoen
- Joshua Schärer

Topics

- Last milestone
- Achievements in the meantime

Risk update

No specific update

Actions to be taken

No actions need to be taken

Discussion

Milestones

- Discussion whether all conditions for the last milestone are met.

Achievements in the meantime

- Demo of our working application
- Discussion about things left to do

Decisions made

General

- Our defence date is the 16.09 at 8 o'clock.
  - Room 5.1C52
- Our expert is going to be Jonas Schwammberger
  - Make sure to send him a copy of the thesis as well
  - Plus send the code as well
  - Email: jonas.schwammberger@gmail.com

Poster

- The poster itself is not that important
  - At least for the grading
  - Exactly like the websummary
- Just make sure that it looks not all too bad

General

- Update SAT NuGet package to the latest release.
- Create the list which holds all constraints inside the loop rather than clearing it.
  - Otherwise it is much easier to make mistakes.

- Absolutely do not test performance in this matter.
  - Use benchmark .net library instead.

BDD solver

- We should not priorities the bdd solver at this stage of the project
  - Should only be implemented if there is enought time left

Next meeting

- We are going to meet again Monday the 15.08.2022 at 2'oclock pm.
